Seeking a position as a junior developer within the scope of education. Currently, studying full stack web development at UCR extension. Graduated in 2006 with a BA in business economics from Cal State San Bernardino. Worked as a teacher for the last eight years and have taught science and history at the secondary level. Seeing students overcome obstacles and reach their goals is very rewarding. It's a great feeling to be thanked by a former student. Whether playing a team sport, coaching a team sport, or working as a teacher; collaboration, communication, organization, and time management have contributed to my success and to the success of those around me. I hope to be an asset for your organization.

## TECHNICAL SKILLS

Frontend: HTML, CSS, JQuery, Javascript, Bootstrap, AJAX, Handlebars

Backend: Nodejs, Mysql, Node Express, MongoDB

## PROJECTS

**SuggestSoCal app** | <https://github.com/mitch-t/SuggestSoCalapp.git>  
<https://mitch-t.github.io/SuggestSoCalapp/>

Collaborator

- This app uses api data to assist users in choosing activities in Southern California.
- This project demonstrates the AJAX method and Javascript functions to retrieve data. The app has a clean lay-out and responsive design. I was responsible for the Javascript and AJAX functions.
- **Tools/Languages:** HTML, CSS, JavaScript, JQuery, AJAX, Materialize CSS

**Team Generator** | <https://github.com/mitch-t/TeamGenerator.git>

Developer

- This is a CLI app that uses Node.js inquirer to create a team profile based on user input. This app is tested with jest.
- I was the sole creator of this project. This project allows a user to create employee profile cards containing contact info.
- **Tools/Languages:** HTML, CSS, JavaScript, Nodejs, inquirer, jest-test.

**Expense Tracker** | <https://github.com/mitch-t/expenseTrakr.git> |  
<https://monthly-expense-management.herokuapp.com>

Collaborator

- This app allows a user to track their monthly payments and create a budget.
- This app was a group effort. My contributions were establishing the file routes and working on the nav-bar and links. My other responsibilities were managing the working tree branch on github and working with merge conflicts.
- **Tools/Languages:** HTML, CSS, JavaScript, JQuery, Mysql, Node Express, Handlebars-js.

## WORK EXPERIENCE

### Mountain View Middle School MVUSD

August 2018 - June 2020

*Teacher - Science 7th and 8th grade*
